# Guide For Successful Rose Planting

Here are some general guidelines Village Green recommends in planting and caring for your rose bushes:

## PLANTING

- ◊ Roses prefer a rich, organic mix and mushroom compost incorporated into the hole at planting. Make the hole at least twice the size of the pot. We recommend **Bumper Crop Gardener's Gold Potting Soil** starting at \$5.99 for an 8 Qt. bag or 2 Cubic Ft. for \$15.99.
- ◊ Water with root stimulator to encourage quick root development and better blooming. We recommend **Garden Rich Root & Grow** starting at \$4.99 for 16 oz. or \$7.99 for 1 Qt.
- ◊ Water in thoroughly to eliminate air pockets.
- ◊ Plant the crown of the rose 1 to 2 inches below the soil surface for added winter protection.

## CARE

- ◊ Roses prefer at least one-half day of full sun and are heavy feeders from spring through summer. Do not feed in fall.
- ◊ Preventive spray programs are recommended to avoid disease and insect damage. Consult our garden pharmacy for details.
- ◊ Roses like lots of moisture but hate standing in water. In dry spells, water heavily once a week.
- ◊ Avoid wetting the leaves, as this encourages diseases. Morning watering is preferred.
- ◊ All but the hardiest shrub roses require some winter protection. Mound soil and then leaves or straw over canes in late fall. Tree roses require special protection or should be brought into unheated inside environment.

# Welcome to the Rose Headquarters at Village Green

where you will discover one of the most comprehensive selections of roses for sale in the Midwest.

Please use this rose catalog as a guide to help you select the perfect roses for you. It categorizes and describes all the varieties that we offer. Our roses are quality, two-year-old plants which are all hand-potted and hand-grown, using only the finest materials, to enhance your gardening enjoyment.

Roses now are easier to grow than ever, and the constantly expanding categories we offer can add beauty and romance to almost any sunny landscape setting. Please allow one of our Nursery Specialists to assist you any way we can with your rose selection and pharmacy products to help them thrive.

## Landscaping with Roses

*Choose a place . . .  
there is a rose ideal for it.*

There is no limit to the many ways roses can beautify your surroundings. With the development of new, hardy shrubs, climbing and ground cover varieties, roses have escaped their previously confining beds and are being incorporated everywhere in the landscape. In addition, we have developed a list of cold climate roses; varieties in all categories that typically out-perform others in our severe weather.
